DOCTOR-PATIENT RELATIONSHIP IN CHIROPRACTIC INFORMED CONSENT

ShIPLEY Chiropractic - 2292 West Magee Road, Suite170 - Tucson, AZ 85742
(520) 797-2922 Fax (520) 742-0732

CHIROPRACTIC

It is important to acknowledge the difference between the health care specialties of chiropractic, osteopathy and medicine. Chiropractic health care seeks to restore health through natural means without the use of medicine or surgery. This gives the body maximum opportunity to utilize its inherent recuperative powers. The success of the chiropractic doctor's procedures often depends on environment, underlying causes, physical and spinal conditions. It is important to understand what to expect from chiropractic health care services.

ANALYSIS

A doctor of chiropractic conducts a clinical analysis for the express purpose of determining whether there is evidence of Vertebral Subluxation Syndrome (VSS) or Vertebral Subluxation Complexes (VSC). When such VSS and VSC complexes are found, chiropractic adjustments and ancillary procedures may be given in an attempt to restore spinal integrity. It is the chiropractic premise that spinal alignment allows nerve transmission throughout the body and gives the body an opportunity to use its inherent recuperative powers. Due to the complexities of nature, no doctor can promise you specific results. This depends upon the inherent recuperative powers of the body.

DIAGNOSIS

Although doctors of chiropractic are experts in chiropractic diagnosis, the VSS and VSC, they are not internal medical specialists. Every chiropractic patient should be mindful of his/her own symptoms and should secure other opinions if he/she has any concern as to the nature of his/her condition. Your doctor of chiropractic may express an opinion as to whether or not you should take this step, but you are responsible for the final decision.

INFORMED CONSENT FOR CHIROPRACTIC CARE

A patient, in coming to the doctor of chiropractic, gives the doctor permission and authority to care for the patient in accordance with the chiropractic tests, diagnosis and analysis. The chiropractic adjustment or other clinical procedures are usually beneficial and seldom cause any problem. In rare cases, underlying physical defects, deformities or pathologies may render the patient susceptible to injury. The doctor, of course, will not give a chiropractic adjustment, or health care, if he/she is aware that such care may be contraindicated. Again, it is the responsibility of the patient to make it known or to learn through health care procedures whatever he/she is suffering from: latent pathological defects, illnesses, or deformities which would otherwise not come to the attention of the doctor of chiropractic. The patient should look to the correct specialist for the proper diagnostic and clinical procedures. The doctor of chiropractic provides a specialized, non-duplicating health service. The doctor of chiropractic is licensed in a special practice and is available to work with other types of providers in your health care regime.

RESULTS

The purpose of chiropractic services is to promote natural health through the reduction of the VSS or VSC. Since there are so many variables, it is difficult to predict the time schedule or efficacy of the chiropractic care. Many medical failures find quick relief through chiropractic. In turn we must admit that conditions which do not respond to chiropractic care may come under the control or be helped through medical science. The fact is that the science of chiropractic and medicine may never be so exact as to provide definite answers to all problems. Both have made great strides in alleviating pain and controlling disease.

FINANCIAL POLICY

ShIPLEY Chiropractic - 2292 West Magee Road, Suite170 - Tucson, AZ 85742
(520) 797-2922 Fax (520) 742-0732

We would like to take a moment to welcome you to ShIPLEY Chiropractic. Our purpose is to provide the very best care available for your condition. To familiarize you with the financial policies at our clinic, I would like to explain how your medical bills will be handled.

Insurance

Your insurance policy is a contract between you and your insurance company. As long as we are a contracted provider, we will be more than happy to bill your insurance. However if your insurance company requires you to have prior authorization or a referral it is your responsibility as a patient to contact your primary care physician and obtain the necessary documents required. You will be responsible for your portion of the bill (also known as co-payments/co-insurance) which is due at the time services are rendered. This fee cannot be waived or discounted. If you have a deductible plan your insurance will be billed once we receive an Explanation of Benefits from your insurance company a bill will be sent with the appropriate balance as per your insurance company. ****Please understand that some services provided may not be covered by your insurance.***

Responsibility for Payment

Please keep in mind that verification of your benefits with your insurance company is not a guarantee of payment. If some or all services are not covered by your insurance plan, *you will be billed the balance* after we receive an Explanation of Benefits from your insurance carrier. Here at ShIPLEY Chiropractic we are committed to providing the best treatment for our patients and we charge the usual and customary fees for the services rendered. Therefore, we do appreciate that any remaining balance on your account be paid promptly.

****The balance is your responsibility whether your insurance company pays or not.***

Uninsured Patients

We welcome those patients whose insurance companies are not contracted, do not provide chiropractic benefits or are out of network. In some cases you may wish to pay out of pocket for services rendered. In these cases we do offer the Preferred Chiropractic Doctor Plan. You would be responsible for a one time annual fee of \$37.00 to the plan directly, and then you will be responsible for a \$25.00 Exam fee on the first visit and \$35.00 per adjustment and an additional \$7.00 if you receive therapy. There are also discounts available for massage if you receive an adjustment the same day. Also a re-exam fee of \$25.00 will be charged if you have not been seen in 3 months or more.

****CO-PAYS AND/OR CO-INSURANCE PAYMENTS ARE DUE AT THE TIME SERVICES ARE RENDERED. WE ACCEPT CASH, PERSONAL CHECKS AND MASTER CARD/VISA.***

Once again, we welcome you to ShIPLEY Chiropractic. We hope that this has answered any questions that you might have about our financial arrangements. If, at any time, you have further questions about your care, please don't hesitate to ask.

I have read and agree to the above
